

General Characteristics

The product HYMANN HY-VP-015.018 are machines that allows to pump complex fluids of high viscosities.

Technical Specifications

Pump flow	250 m ³ /h
External dimensions	Length = 796mm \varnothing = 500mm
Bun diameter	\varnothing_1 = 390mm or \varnothing_2 =340mm (under order)
Bearings	33212
Seal	DMSF 65
Greasing	VIGOGREASE REO
Pressure of working fluid	6 bar
Range of working temperature	-10 °C - 80 °C
Working fluid	High viscosity fluids

Material

Shaft	Duplex Steel
Bun	Smelting
Box of bearings	Steel hard chromium
