

### General Characteristics

The HYMANN HY-MB products are magnetic separators designed for to separate particles or ferrous pieces (nuts, nails ...). High resistance to wear and abrasion.

### Technical Specifications

Input thread	M8
Output thread	M8
External dimensions	Length: 1200 mm - $\varnothing$ : 40 mm
Maximum working temperature	80 °C
Surface Gauss	6000 Gs

### Material

Body material	Stainless steel
