

Hymann

Hydraulic technology

CUT-OFF VALVE D6

REF. HY-PV-016.025

General Characteristics

The HYMANN HY-PV products are rapid cut systems to ease the emergency close in tanks, storage lines and transport.

Technical Specifications

Inlet diameter	1/4" G
Outlet diameter	1/4" G
External dimensions	High: 235 mm; Width: 75 mm
Nominal pressure	250 bar
Range of working temperature	- 10 °C a 80 °C
Working fluid	High viscosity fluids
Fluid maximum speed	3 m/s

Material

Valve body	Zincal 75
------------	-----------
