

General Characteristics

The HYMANN HY-SR products allows the electrical connection between the fixed and rotary elements.

Technical Specifications

N.º. of circuits	9x signal; 2x power
Voltage max.	24 V DC
Current max. p. Ring	1 A signal; 10 A power
R.P.M max	100
Protection Class	IP 00
Lead wires	Screw terminals; JST connector
Temperature Range	-20°C / +80°C

Material

Body	Stainless Steel
